

# Knowledge, experience and Beyond: Skills and Competencies Needed for Librarians Nowadays

Dóra KALYDY

Deputy Director General

Library and Information Centre of the Hungarian Academy  
of Sciences

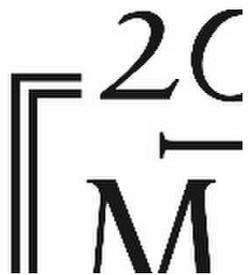

To know what you know and what you do not know, that is the true knowledge.

(Confucius)

# The Key element of the strategic plan

- „participation in a fundamentally transformed librarian training programme”

# LIBER (Association of European Research Libraries)

## Strategic objectives 2023-2027

Focus on leading developments to get ahead of radical changes happening in research landscape.

### LIBER Leadership Programmes Working Group

- LIBER Journées for Library Directors
- LIBER Emerging Leaders

## Association of Hungarian Librarians

- Citizen Science Roadshow

# To consider

- Professional associations must take on the responsibility of providing continuing education and training for librarians.
- The best learning process is the transfer of personal experience and practice-oriented problem-solving.
- By working together and leveraging each other's strengths, we can move forward together.

**Thinking without learning is dangerous.  
Learning without thinking is useless.**

**Thank you for your attention!**
